### **PhD Scholarships in Molecular Parasitology**

PhD scholarships are available for research in molecular parasitology at the University of Technology Sydney under the supervision of Professor John Ellis, based in the Institute for the Biotechnology of Infectious Diseases. **International students are encouraged to apply.**

Research students are sought in the following areas:

- 1) *Vaccination against Neospora caninum*
- 2) Role of *Dientamoeba fragilis* and *Blastocystis hominis* in gastroenteritis.
- 3) Mining of sequence databases and the application of bioinformatics for drug target discovery.

The successful candidates will receive a scholarship and financial support to attend national and international conferences.

Further information can be obtained from Prof John Ellis (email: [john.ellis@uts.edu.au](mailto:john.ellis@uts.edu.au); <http://www.science.uts.edu.au/health/ellis.html>)
